Spartan Overview

Established in 2006, Spartan Fund Management is an investment fund manager that specializes in providing a broad selection of alternative investment solutions that meet a variety of investment needs. We believe that niche, non-conventional investment strategies tend to outperform more traditional strategies and/or add needed diversification. We also believe that alternative investment strategies provide better risk-return opportunities for investors than do conventional strategies. Spartan accesses alternative investment strategies either through internal investment teams or by way of feeder funds that invest in existing funds that are managed by external fund managers.

Fund Overview, Objectives and Strategy

LSQ is a quantitatively oriented Long/Short Equity fund that is absolute return focused. The Fund's objectives are to provide consistently positive returns in the 20-25% per annum range with low correlation to the North American equity markets. The Fund primarily trades North American listed equities and operates with a very low net exposure to the market. The investment team, headed by Chief Strategist Todd Heaps, conducts extensive quantitative analysis on all investment ideas and trades in a systematic fashion, overlaid with management's extensive trading experience. Todd has over 15 years experience trading equities, options and foreign exchange, initially with BMO Nesbitt Burns and later with National Bank Financial. For the 5 years prior to joining Spartan, Todd managed private money and built an exceptional track record with not only high returns but low risk.
